

Residential Heating and Cooling Equipment Certificate for Qualified Energy Property Tax Credits

The Further Consolidated Appropriations Act of 2020 reinstates/extends the Section 25C tax credit that expired on December 31, 2017. The credits are now applicable for equipment installed between January 1, 2018 and December 31, 2020 – two years retroactive and one year forward. Gibson heating and cooling products, manufactured by Nortek Global HVAC, LLC, certifies that the models or systems listed on the following page, if placed in service after December 31, 2017 and before January 1, 2021 in a homeowners primary residence, meet the criteria of “Qualified Energy Property” as set forth by Section 25C of the Internal Revenue Code. The tax credit is up to 10% of the installed costs (up to \$500.00) for qualified equipment.

IMPORTANT NOTICE: For tax purposes, save your receipt and this Certification Statement. Nortek Global HVAC, LLC is not responsible for incorrect interpretation of IRS tax regulations. Please consult a tax professional if appropriate.
